

## *Use Case Specifications*

In this website ("E-Hub") the person or customer can login to their accounts or sign-up if they didn't have an account. The customer can keep track of their project and which team is handling their handling their project under which manager. In this project or website, the customer can view their project whether if it is accepted or not the manager to proceed and if he/she needs any kind of help the customer care or dealer contacts that particular person and solve their issues.

The manager will login to the website and can view the projects request and verify if their team can do it or not and if they can he accepts that project and the team will works on it and if the customer has any request regarding to the change in projects the manager will again verify and if they can he will agree for changes if not he declined the changes.

At the end the customer will pay the price for that particular project that he agreed with the manager to the cashier.
